Join the first Baltic Briefing Seminar of 2019 which addresses key issues, developments and pitfalls surrounding bunkers and bunker markets.

Chaired by Philip Bacon from Ichthus Marine the Briefing focusses on the marine side of the bunker cycle in three segments; Buy, Receive, Burn.

Experts from purchasing and Lloyds Register, will bring clarity to specs, the issues and assumptions that cause frustrated contracts when taking delivery. On consumption and performance, the StormGeo shipping team will give their insights into charter party warrants and all presentations will be set against a backdrop of how counterparts scrutinise operational performance and add certainty to what can be an uncertain element of shipping business.

The Briefing will be followed by a Wines of Italy tasting, hosted by the Baltic Wine Society (£25 per person)
