

# Baltic ICS Member lectures

## SERIES 2

The Baltic Exchange and Institute of Chartered Shipbrokers present a series of lectures in Shanghai, Singapore, Athens and London; intended to support and develop those working in chartering and operations.

Taking place near the end of every other month and including lunch where applicable, lectures are free to employees at Baltic and ICS member companies. Supported by the major broking houses and principals, this initiative is aimed at supporting those developing careers in shipping and encouraging better advocacy across a future generation of industry leaders.

## FINANCIAL TOOLS (SHIP FINANCE & FFAS)

Lecture no. 4 of 5 | 27 March

Our upcoming lecture on financial tools in chartering focuses on the financial considerations that principals make and how they can impact decisions and their activity in the physical market. Looking at finance and common hedges available through FFAs, currency and other related commodity markets, our thought leaders will examine common structures in place used by counterparts to limit book uncertainty when trading in volatile markets and how these external factors can influence physical freight markets and fixtures.

**Singapore** | 27 March | 13.00
